Notes:

See website for more details.

Costs as predicted for 2026. Included are the flight and sim hours, cost for ground school & study materials, first knowledge and skill tests for each rating/license, furthermore licensing fees and the cost for textbooks and materials. Airplane headsets are available at no additional fee. Flight hours are counted from engine start to engine stop and rounded to the nearest decimal. All Pre- and Post-Flight Briefings are free. The student gets unlimited access to our Procedures Trainer (MSFS2020, VR).

Actual cost may vary depending on student flight and sim hours. Students passing the CAFTC selection, which is mandatory for the integrated course, are expected to complete the training within 10% of set target hours.

The cost for the student pilot uniform is not included.
