Notes:\*

Costs as predicted for 2025. Included are the first knowledge and skill tests for each rating/ license, furthermore licensing fees and the cost for textbooks and materials. Airplane headsets are available at no additional fee. Flight hours are counted from engine start to engine stop and rounded to the nearest decimal. All Pre- and Post-Flight Briefings are free. The student gets unlimited access to our Procedures Trainer (MFSM2020/2024, VR).

Actual cost may vary depending on student flight hours. Students passing the PACTEC selection, which is mandatory for the integrated course, are expected to complete the training within 10% of set target hours.

The cost for the student pilot uniform is not included.
